

HUMAN TEMPERATURE DETECTION & NOTIFICATION SYSTEM

CAMERA SURVEILLANCE EQUIPMENT

WEATHERPROOF RECORDERS

ACCESS CONTROL

IN-HOUSE TECH SUPPORT

SOLAR PLATFORMS

ALUMINUM ENCLOSURES

High Volume Applications

The high volume human temperature detection and notification system is ideal for indoor crowded areas where measuring multiple people in a short period time is a concern.

AIRPORTS

COMMERCIAL BUILDINGS

ARENAS & STADIUMS

THEME PARKS

PUBLIC TRANSPORTATION

HOSPITALS & NURSING HOMES

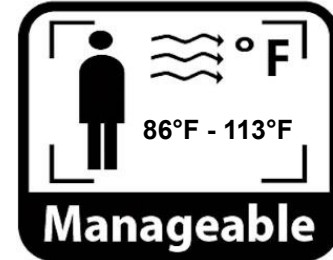

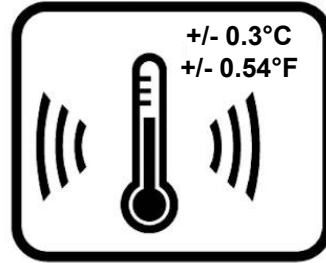

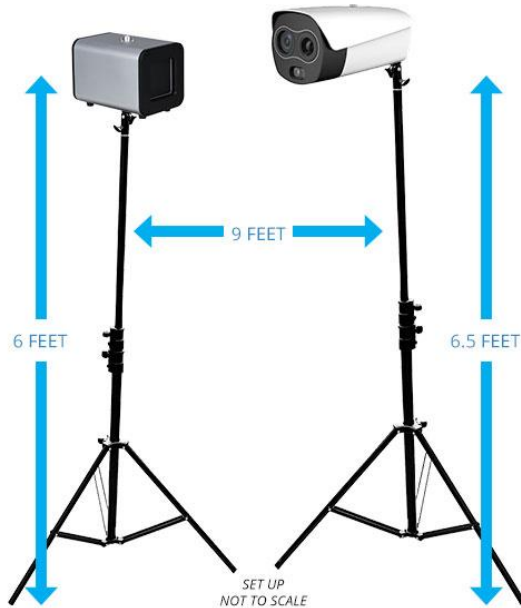

SCHOOLS & CAMPUSES

RETAIL & GROCERY

High Capacity Temperature Detection System

This solution is capable of highly accurate body temperature detection +/- 0.3° C (+/- 0.54° F), offering a highly efficient and contact free solution.

High Volume Human Temperature Detection & Notification Solution

IPTHB8-TC

- Hybrid Dual Lens Thermal Camera
- Athermalized Lens
- Visible 2MP, 8mm Lens
- Thermal 256 x 192, 7mm
- White Light & Audio Alarm

IPTH-TC

Temperature Control processor for processing human body temperature (includes power adapter)

NVR16P16-2DL

- 16 Channel 1U 16 PoE NVR
- Statistical Reporting / Exporting
- 4 Channels Mask Detection
- 4 Channels Face Recognition

**TRIPODS x 2
with hardware**

**CABLING
& POWER SUPPLIES**

**CEILING OR WALL BRACKET
(optional)**

**MONITOR
(optional)**

With a built-in AI algorithm, it can measure multiple people from a distance of 9.8 feet away and within a span of 4.3 feet, enable a fast and accurate assessment without any personal contact.

With a built-in AI algorithm, it can measure multiple people from a distance of 9.8 feet away and within a span of 4.3 feet, enable a fast and accurate assessment without any personal contact.

[THERMAL LENS]

HOSPITALS

The human temperature detection and notification system has been proven globally.

SCHOOLS

The human temperature detection and notification system has been proven globally.

BANKS

The human temperature detection and notification system has been proven globally.

STADIUMS / CONFERENCE HALLS

The human temperature detection and notification system has been proven globally.

Thermal Camera
