

NEMA 3 & NEMA 4 5052 ALUMINUM

WEATHERPROOF ENCLOSURES

ArmorLogix 5052 aluminum weatherproof enclosures are built to resist rusting and corrosion. Coming in both NEMA 3 and NEMA 4 versions, each enclosure includes a removable blank equipment plate, triangular camlock, as well as a sunshade and universal mounting brackets to provide true 360° cooling. With over a hundred models & accessories to choose from, ArmorLogix enclosures are built to stand the test of time.

5052 ALUMINUM

All ArmorLogix weatherproof enclosures are constructed using 5052 Aluminum which provides better rust and corrosive protection than standard stainless steel, quicker heat dissipation, and are lighter than most similarly sized steel weatherproof enclosures.

UNIVERSAL MOUNTING BRACKETS

All enclosures come standard with (2) universal mounting brackets made from 3/16" Aluminum. Easily mountable to a wall, pole, or other mounting options like Unistrut.

BLANK EQUIPMENT PLATE

Each enclosure includes a blank aluminum equipment plate, that is both adjustable and removable allowing users to easily mount their own equipment outside the enclosure.

COMPLETE 360° COOLING

Each ArmorLogix enclosure comes standard with a built-in sunshade and 2x Universal Mounting Brackets. The included sunshade acts as a heat sink, reflecting the sun's rays, and allows for additional natural temperature control from the dispersion by cooler air circulating past the top enabling true 360° cooling around the outside of your enclosure. The Universal Mounting Bracket's offset design prevents moisture from collecting inside your enclosure.

WEATHERPROOF ENCLOSURES

WEATHERTIGHT SEAL

ArmorLogix enclosures come with a weathertight 3M 3/8" thick Neoprene seal preventing the environment from getting inside the enclosure.

SECURE LOCK

All enclosures from ArmorLogix come with a secure camlock and a set of (2) camlock keys. These can be upgraded to padlockable handles, or other keyed locks upon request.

MYLAR BUBBLE INSULATION

This two layer, 1/8" laminated bubble and metalized film, provides additional climate control within the enclosure.

ADDITIONAL ACCESSORIES

Each ArmorLogix enclosure has the flexibility of adding almost anything you want inside.

- Locks & Latches
- Remote Access
