-  Remote Connectivity
-  Lighting & Deterrence
-  Smart City

9' 3.25" UNDEPLOYED HEIGHT

23' 6" FULLY DEPLOYED

Reduce Costs with Real-Time Notifications

Whether you have one trailer or a fleet of trailers, being able to monitor each unit becomes critical. ArmorLogix helps save you operating costs by reducing the number of service visits checking up on your fleet. Receive vital system alerts on all aspects of your trailer ensuring that your solar panels are generating, batteries operational, and your equipment running at optimal capacity.

OPTIONAL UPGRADES

Surveillance

Put eyes anywhere with one of our NDAA Compliant CCTV Surveillance packages, or add your own surveillance equipment. Be proactive about protecting your site by actively deterring intruders before a crime has been committed, simply by having visible camera surveillance on site. Packages can include PTZ cameras, 360° Fisheyes, and 180° Panoramic cameras. Pair with cellular connectivity for 24/7 remote access.

Remote Connectivity

Easily connect to any equipment installed on your ArmorLogix power station with cellular connectivity. Coverage is ensured via dual SIM slots for your choice of carrier (not included). Keep track of your investment by using the included optional GPS (free for the first year) from a PC or mobile. The OV4G also includes WiFi connectivity for remotely accessing equipment from nearby using a laptop or cellular device.

Active Deterrence & Lighting

When the sun goes down, safety and security become paramount for construction sites, parking lots, and events. Illuminate large sites providing passive deterrence while keeping employees, equipment, and visitors safe with full illumination. Actively deter trespassers and potential bad actors with Red / White / Blue LED strobes. Our solar platforms with integrated lighting packages, you're not just brightening your space – you're creating a safer, more secure environment.
